Information Technology Institute (ITI)   July,2024
- Completed intensive hands-on training in backend development.
- Worked on real-world projects applying HTML, CSS, and backend fundamentals.

Courses:

AI Roadmap Training   On-site
Creativa Hub Beni Suef   July,2025
- Attended a structured training covering the Artificial Intelligence roadmap.
- Gained exposure to AI fundamentals, machine learning concepts, and career paths in the AI field.
- Participated in interactive sessions explaining tools, skills, and learning paths relevant to AI careers.

Fundamentals Of Web Design   Remote
Tasabuq Company   Jan,2025
- Gained solid understanding of HTML and CSS.
- Designed and developed responsive web pages following best practices.

Certifications:

Fundamentals Of Web Design ↪

Beni Suef University | Completed Feb,2025

- Course covering core programming concepts and web development fundamentals.

Projects:

Hospital Database System "[GitHub](#)"

- Designed and implemented a relational database for managing hospital operations.
- Created and optimized SQL queries for patient records, staff information, and appointment scheduling.
- Ensured data integrity and security through constraints and access control.

Website Development "[GitHub](#)"

- Developed a responsive website using HTML and CSS
- Added interactivity with basic JavaScript for enhanced user experience
- Designed a clean and modern layout to showcase personal projects and skills

Skills:

Technical Skills

- **Data Analysis Tools**: [Microsoft Excel , SQL , Python , Microsoft Power PI ,Tableau]
- **Programming Languages**: [Java "OOP" , HTML , CSS , C++]
- **Microsoft Office**: [Word , Excel , PowerPoint , Access]

Soft Skills

- Attention to detail
- Teamwork
- Time Management
- Creativity

Language Skills

- Arabic (Native)
- English (B2)
